

# CHECKLIST | POST-OPEN ENROLLMENT

An organization's post-open enrollment activities can be just as important as the tasks that must be completed leading up to and during open enrollment. After wrapping up open enrollment, there are many benefits-related responsibilities employers must address before the start of the new year, and there are others that can be completed after the year's end but before the beginning of next year's open enrollment season. The post-open enrollment period can allow employers to gather valuable information, including feedback and analyses, that can be used to improve next year's open enrollment process. This checklist can assist organizations in developing effective post-enrollment practices and ensure the post-open enrollment period is fully utilized.
