

# TrumpRx FAQs

Provided by Parrott Benefit Group

---

TrumpRX is a newly launched federal [website](#) intended to help Americans access lower prices on select prescription medications by showcasing discounted cash pay options negotiated directly with pharmaceutical manufacturers. Unlike a traditional pharmacy or insurance integrated tool, TrumpRx does not process insurance and does not function like a standard drug dispensing platform; instead, it displays prices obtained under the U.S. Most Favored Nation (MFN) pricing initiative, and offers and directs users elsewhere to complete purchases.

Below are several frequently asked questions about TrumpRx listed on the official website.

## **Q| What is TrumpRx?**

**A|** TrumpRx is a website that lists discounted drug prices from manufacturers that have agreed to Most Favored Nation (MFN) pricing. Americans can use TrumpRx to purchase drugs in cash (outside of their insurance). These drugs can be obtained at participating pharmacies using coupon cards displayed on TrumpRx or directly through manufacturers' websites. Not all drugs are currently available at TrumpRx but more are coming soon.

## **Q| Which drugs are listed on the website?**

**A|** Many commonly prescribed brand-name drugs are listed on TrumpRx, such as fertility and weight loss drugs. More drugs are coming soon.

## **Q| Do I need to create an account or register on TrumpRx?**

**A|** No. There is no need to create an account or register to access TrumpRx discounted pricing. You should speak with your doctor to see if a drug is right for you and then receive a valid prescription for a pharmacy to dispense the drug to you.

## **Q| Can I get TrumpRx prices at my local pharmacy?**

**A|** Some drugs are available through coupon offers displayed on TrumpRx. These coupon programs can be used at local pharmacies on a nationwide basis, with the exception of certain specialty drugs. Other drugs are only available at discounted prices through the manufacturer's website.

**Q| Does TrumpRx cost anything?**

**A|** No. TrumpRx is free to access. However, the drug prices at purchase point vary.

**Q| How do I purchase drugs at TrumpRx?**

**A|** TrumpRx displays discounted drug pricing offers but does not sell or dispense drugs. Patients can access the drugs through the instructions shown for each individual drug offer.

**Q| Can I use my insurance to buy drugs listed on TrumpRx?**

**A|** At this time, TrumpRx discounted pricing is only available for cash-paying patients.

**Q| Why does my medication look different than the pictures on TrumpRx?**

**A|** All drugs listed at TrumpRx are FDA approved. Pictures on TrumpRx are intended as visual representations and do not include marketing logos or other product branding. As a result, visual representations may not necessarily look like the final product. The drugs that patients will receive from pharmacies will include all standard branding, packaging, and safety information.
